### **Alphacore Recognized Again by Inc. Magazine!** Inc. Magazine September 2019 Honors Fastest-Growing Businesses

Tempe, AZ (September 9, 2019) – Alphacore, leader in high-performance analog, mixed signal and RF electronic design, announced today that it has been recognized in Inc. Magazine’s annual edition of the fastest growing and most successful companies in the U.S. for its continued phenomenal growth rate of 767% over the last three years.

“We are very proud to be recognized by Inc Magazine for the second consecutive year,” states Alphacore Founder and CEO Esko Mikkola. “Our team continues to deliver industry leading high-performance integrated circuits for use in key programs such as the CERN accelerator for scientific research, and space missions for NASA and the U.S Department of Defense.”

Alphacore advisor Mamoon Rashid, senior vice president of strategic ventures at ON Semiconductor, said “Under Esko’s leadership, Alphacore has demonstrated it can grow consistently with best in class performance in several critical Analog & Digital platforms. He has laid a foundation built on excellent talent, and a culture of execution without compromising quality.”

Inc. Magazine rankings also cited Alphacore as sixth in the country among computer hardware companies, and eleventh in Arizona by percent growth. For ranking details please refer to Inc. Magazine’s September 2019 issue.

#### **About Alphacore**

Alphacore is a leading provider of robust high-performance analog, mixed-signal and RF electronics. Alphacore specializes in high-speed and high-reliability products, including ADCs, PLLs, super high-speed imaging, detectors and cybersecurity. Alphacore delivers products and performs services for dozens of industry, government and research agencies. It has established partnerships with nine leading academic institutions and is a significant funder of research at Arizona State University. Founded in 2012, Alphacore is headquartered in Tempe Arizona.
